Traffic Advisory: Guilford and Main Roundabout Construction Begins

CARMEL, IN – On or after Monday, October 7th, Main Street and Guilford Road will be closed for 60 days, weather and utility relocation permitting, to replace the signalized intersection with a roundabout. This phase will complete the Guilford Boulevard Project.

We appreciate the communities' patience as we finalize the improvements to safety and beautification of this area along Guilford, which includes the area directly in front of Carmel Middle School. At the completion of the project from City Center Drive to Main Street, Guilford will be a beautifully landscaped boulevard.

The safety of students and families walking or biking to and from the school was a high priority when planning this project. To increase pedestrian safety and enhance access, in the area, multi-use paths and crosswalks were added and older sidewalks were replaced. Drainage in the area was also improved with the storm water features that were added.

This is a rendering of the roundabout at Guilford and Main.
