

Your Guide to Carmel Link 2.0

CARMEL LINK 2.0 is a three-year concentrated infrastructure improvement program that will result in the completion of new roundabout intersections along Gray Road and 96th Street, the completion of Keystone Parkway with a new interchange at 96th Street and Keystone Parkway, storm water management and drainage improvement projects throughout the city, and the upgrade of a large section of Range Line Road and other improvements.

ROUNDAABOUTS

Carmel builds roundabouts because of their proven safety record, their compatibility with the environment, their aesthetics and their ability to make it easier for pedestrians and bicyclists to navigate the city. In Carmel, where roundabouts have replaced signals or stop signs at intersections, the number of injury accidents has been reduced by about 80 percent and the number of accidents overall by about 40 percent.

INSIDE:

STORM WATER AND DRAINAGE

The storm water and drainage projects included in Carmel Link 2.0 are designed to maintain existing storm water infrastructure, construct new infrastructure, address localized drainage issues, and reduce waterway pollution.

STREET AND INFRASTRUCTURE IMPROVEMENTS

Several streets will undergo widening and reconstruction resulting in safer designs, less congestion, a more responsible impact on the environment and a greater aesthetic appeal. The construction of several multi-use paths will extend the city's commitment to incorporate trails and paths that are bicycle friendly and encourage walking, jogging and running.

Carmel's road projects are always done in the most efficient manner while maintaining safety for road construction crews. We appreciate the patience of the motorists as they make their way through areas of construction.

This congestion at the intersection of 96th Street and Keystone Parkway will be remedied with a new interchange.

A PRELIMINARY LIST OF CARMEL LINK 2.0 PROJECTS

(schedules subject to change)

Please be advised that construction timelines and construction information is subject to change due to weather or other unforeseen circumstances. The following updates provide general information and will be updated as necessary.

2016 TRANSPORTATION PROJECTS

Towne Road and 106th Street Roundabout	2016
Carey Road and 136th Street Roundabout	Fall 2016
Carey Road and Hawthorne Drive Roundabout	Fall 2016
