TRAFFIC ADVISORY

Updates on Spring Mill Road, City Center & Range Line, 136th & Gray

CARMEL, IN – Here are road construction updates for the week of April 24 as the City of Carmel continues to invest in its infrastructure. Motorists should always pay close attention to traffic control, orange barrels, special signage and detour routes posted for these projects. Follow @CityofCarmelIN on Twitter or find us on Facebook for breaking news alerts. You can also get more detailed information on all projects at Carmellink.com

106th and Spring Mill – Spring Mill Road will be closed south of 106th Street beginning Monday, April 24, for about 15 days to replace a culvert just south of the intersection. Motorists are encouraged to use Illinois Street as a detour.

City Center and Range Line – The roundabout project will begin Monday, April 24. This is NOT a full closure during phase one of the project. One lane of traffic will be open northbound and southbound on Range Line Road and westbound on 126th Street from Keystone Parkway (the current traffic configuration). During phase two of the project (on or after June 1) the intersection will be closed for approximately 14 days to finish the roundabout.

136th and Gray – The roundabout project will begin Monday, April 24 and the intersection will be closed until about mid-June, weather permitting.

Carmel Drive and City Center Drive – The roundabout project is currently scheduled to begin on May 1 for what will be a 45-day closure.
